

PORKINSON: OUR MICHELIN STARRED CHEFS' FAVOURITE!

This year, 'Porkinson' - a truly British brand, has linked up with some of the UK's most up and coming Michelin starred chefs to celebrate the wonderful British banger!

Three of the most exciting Michelin starred chefs working today - Hywel Jones, Graham Garrett and John Morris - have each created two signature 'Porkinson' dishes, to bring alive the sumptuous flavour and unique heritage of this classic British favourite.

Using only the finest ingredients, these stars of the restaurant scene - recognised for developing innovative, top quality cuisine - are now working their magic on their favourite 'Porkinson' sausage.

'Porkinson' is the result of one man's obsession with taste perfection. First produced in the UK in 1987 to the exacting standards of iconic 60's & 70's fashion photographer Norman Parkinson, Porkinson sausages are available as both Original Bangers and Chipolatas. Made with the finest cuts of 100% outdoor reared British pork and blended with herbs and spices to a traditional West Country recipe – Porkinson attracts true lovers of fine food.
